Dear Kevin:

Thank you for presenting at our 65th Annual Conference in Nashville, Tennessee. Our Delegates received a wealth of educational insight and knowledge from you to take back to their municipalities. Your professionalism, attention to detail, understanding of our membership and their diverse duties helped make your presentation and the overall education program a success.

Our Institute's primary purpose is the professional and personal development of our members. Please know that your contributions to our Conference program were a significant part of this effort.

Your story is impressive and we encourage you to keep sharing it so others can learn how to work as a team under pressure like our members have. It was an honor to meet a Distinguished Flying Cross recipient! I wish you continuing personal and professional success and fulfillment.

Sincerely,

Jennifer Ward
Associate Director of Education
